The cave woman the cave man and the tribalists seem to still possess the abilities of pineal gland conduction. Being from various primates , monkeys , simians , apes , gorillas and the like , all evolving at various times on this planet has left the more developed species of humanoid to be forced to integrate with newer evolutions of humanoid in our own societies of the United states and European people's. It is believed that due to the advancements in reading, writing and speech that some of the species of human have developed much further past these unevolved monkey traits much like the appendix shrunk after meat began being cooked. Being that by looks alone the Europeans have had an advanced society in the past which was most likely disrupted by ice ages and forced the survivors to live in small pockets in areas that would still be inhabitable and most likely where heat would escape through thermal passages and heat streams and valley or canyon systems where the winds would not just blow off the heat. Due to these factors it is more probable that the Europeans did not fall back into tribalist life before etruscia and the early found or remembered small pockets of species of European. I do not know other societies of humans , being , I have not live and become familiar with the various species and races there of in regions of the earth such as Africa , India /indies and the orient. My understanding is limited to north America and Europe where I've lived my entire life and have personal experience with the indigenous people's in these regions and the migrant workers, invaders and unfortunately slaves. That being said I am uncertain of other species and their development processes although through pictures and some minor interactions in our lands I can see that most probably due to temperament and the physicality of height that they took have people's from various evolutionary points in time without their tails. It also seems that the white American caveperson who has obvious physical variations than a thin slender taller European person along with their cross bred central and south American allies have been infiltrating the European society since around the fall of Rome or perhaps , before the fall of the democracy of Athens. It also seems evident that these people did indeed have more advanced sciences and emotional capacities by how quickly they regain technology and how non violent they are. It seems also that with these ice ages that are the reason their hypothetical societies were dissolved that during this process many of their records , teachings and technologies were forgotten and lost as well.

The American caveperson or mixed cave people such as Churchill, Goebbels, Himmler , Joe Rogan team (both the male and females are cross mixed cavepeople) have been able to infiltrate our European and American colonies and societies and cause war after war on our own people with our own people. Along with these tragedies they caused our genetics and society the Vatican which is not a European religion or theology has been killing off our people through the dark ages and funding wars such as ww1,ww2,Vietnam and Korea more recently to send our people into extinction or slavery through either taxation or abductions. The American Indians are mostly origin of India , Mongolia and parts of the orient mixed with central and south American species of mammal evolution much less in time without

their tails and as a group have ferverently destroyed the various European races and species since the destruction of Athens and the destruction of Etruscia. These people also seem to possess the ability to conduct their pineal glands like the monkeys they are from or elephants or other animals which never had the experience of reading , writing and speech for communications.
 If the Vatican has a pinecone sculpture ten meters in diameter which represents the pineal gland which is now dormant in most evolved European people's then how can they say they are from Europe? Why did they kill and torture and kill off many species and races of Europeans? Why were they against anyone migrating to the Americas over the past 1800 years and send war parties of foreigners through the nederalnders ? Why do they ferverently bring foreigners into our societies to rape and murder Europeans? Why do they send all our money to these tribalists regions for produce and fruits? Why did they not enforce the migrants who call themselves Italians growing Europe's fruits and vegetables after 20,000 euros were given to the mongloid foreigners who call themselves Italians to grow our own produce and fruits. The Vatican and the Christian religion in total is not European and has never had white (not American cavepeople) interests at hand. I'm a cross mixed European person who looks like Frankenstein next to other species of human that kept themselves. What is this fat pocket lining my inner thighs? Can we kill these fucking cave people for doing this to us yet, this is genocide on Europeans. The last person to fight for my European people's rights died over 30 years before I was born. His name was Adolf Hitler. Donald trump has only 1/8 of his genetics from Europe the rest is mixed American caveperson and other. His offspring are even less European genetics. The nazi terror as you call it was from the American cavepeople that were intermixed since the fall of Athens. Eisenhower was a racist genocidal African who murdered many concentration camp prisoners with the outlander SS and holocaust guards just before the American troops officially showed up. These people Europeans,Turks,Arabs,Nordics,and jews would have most likely been killed because they would have known who was who and what was really happening and would have destroyed the American cavepeople, Indians and Africans alibies.

Meditation: what kind of meat should I barbecue this 4th of July celebration? And what marinade should I use? Old bay for the fish maybe or lemon pepper ?
Can we nuke the Americas and a few counties in India, Africa and the orient yet?

Caveperson signs to look for:
meaty upper lip,
short legs
wide hips
fat pockets on back shoulders and fat pockets on inner thighs
loose skin (from living long past their genetically programmed lifespans from european medicines and houses and lifestyle)
meaty upper lip
some are ball shaped

meaty upper lip and facial features much like a caveperson,
orange hair many have
meaty upper lip
laugh at flatulance and flatulance jokes
always have social system jobs to hurt the poor ones of europeans
, law enforcement jobs to not investigate their own people committing genocide
many latinos which are thinner and taller from genocide on eastern europeans and outlander settlements still have latino features in their faces and can be matched up to spider monkey features and other south american mamals they are evolved from.
Meaty upper lip
